

# Valve Mounting Kits and Accessories

Valvekits has been in existence for over 20 years, in more recent times as part of the Rotork Gears group of companies. We offer a broad range of valve and actuator mounting brackets, couplings and positioner brackets.

Rotork Valvekits holds an enviable reputation for producing quality stainless steel products with deliveries made within days of ordering, both in the UK and throughout Europe. A 48-hour delivery service can be undertaken upon request.

Rotork Valvekits offer products associated with the valve and actuator package, ranging from solenoid valves to positioners; switchboxes to declutchable gearboxes. Products such as spring return levers, locking devices and extension stems are also available.

### Mounting Kits

- Manufacture and design of kits for quarter and multi-turn valves to pneumatic and electric actuators.
- Stainless steel and Mild steel kits available for quarter-turn valves either box section or enclosed spool type kits.
- Specifically designed accessory brackets available.
- Full assembly and test available of actuated packages.

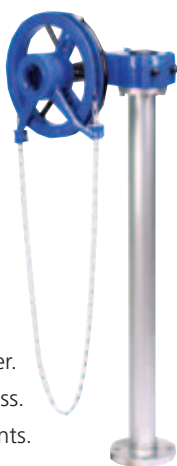

Contact Rotork for further details.

### Extensions

- Lagging extensions for quarter-turn valves manually operated, T bar or refit valve lever.
- Fully enclosed extensions in mild or stainless.
- Pedestal type extensions with universal joints.
- Full design calculations
- Range of chainwheels available on request in cast iron or stainless steel.

Contact Rotork for further details.

### Uniflex-Stow\* - Flexible Drive Technology

Complete design flexibility with a range of options to meet the most challenging installations in every industry.

- Lengths up to 46 m
- Safe & easy installation
- Input torques up to 300 Nm
- Suitable for manual or electric actuation
- Suitable for all applications including Naval & Nuclear.

\* Uniflex-Stow is the registered trade mark of B.W.Elliott Manufacturing Co, Inc.

Everything for the valve and actuator industry

...except valves & actuators

## Switch Boxes

- Various options include standard V3 switches, intrinsically safe sensors and pneumatic switches.
- Full range of switchboxes available for Safe, Explosion proof and Intrinsically safe areas. Bespoke models available on request.

Contact Rotork for further details.

## Solenoid Valves

Rotork Valvekits have available a large range of quality solenoid valves to cover all the range of safe and hazardous areas. These include Exia and Exd in various materials with NAMUR and remote mount options.

Contact Rotork for further details.

## Spring Return Levers

- Fail safe manual levers (deadmans handles) for quarter-turn valves.
- S-Pak will operate valves with a maximum torque of 24 Nm.
- D-Pak will operate valves with a maximum torque of 45.5 Nm.
- Fusible link option also available on request.
- S.S direct mount version now available up to 12 Nm.

Contact Rotork for further details.

## Locking Devices

- Locking devices can be designed for ball, butterfly and gate valves.
- Two options are open/closed and multi-position.
- Material can be either stainless steel or mild steel.

Contact Rotork for further details.
